

FEEDBACK FROM OUR COUNTRY PLATFORM: VIRTUAL AFRICAN PARTNERS WORKSHOP

Zanele Shezi, Ernest Letsoalo,
Michael Malinga and Brigid
Letty

REVIVING PROLINNOVA SOUTH AFRICA

- ❑ Engaging a core team from KZN, Mpumalanga and Limpopo Provinces
- ❑ Finding common focal areas for engagement
- ❑ Focusing on virtual engagement between provinces
- ❑ Finding ways to work together around common issues within Provinces
- ❑ Looking to use funded projects to identify and support local innovations
- ❑ Have engaged around 2020 activities to try to ensure broader participation

Terracing within a urban settlement to use limited space for vegetable production – Madiba, KZN (Home of Mr Ndlela)

He is also a member of our UNDP-funded household garden project being implemented in partnership with INR and PACSA

COMMON FOCAL AREA: HOUSEHOLD WATER SUPPLY

- Many rural households are not serviced
- They rely on natural water sources
- We encountered one social innovation where households have collective system
- PACSA is also supporting this (independently)
- How can we share – social (allocations) and technical elements (repairs)
- Strong gender element
- Opportunities for brokering / engaging stakeholders (Municipality, NGOs)
- Interest from UNDP Accelerator Labs – towards achieving SDGs

Meeting with household members UNDP Accelerator Lab about the water supply system

SHORT-TERM AIMS

- Revive the network
- Re-establish PSC (Need government involvement)
- Network around specific areas of interest to maintain momentum
